Concept

The BIG Ideas

- ☑ **Principles: Train as You Will Fight**
 - “Fight” includes lethal/nonlethal
 - Develop agile leaders, comfortable with ambiguity
- ☑ **Change The Army’s Training Mindset (Training is Different)**
 - Driven by FM 3-0 Operations
 - No return to a strict focus on major combat operations - offense and defense
 - Train an expeditionary Army; develop agile leaders
 - Train for full spectrum operations as depicted by the Aim Point
 - Training must focus on most important tasks
- ☑ **Core Mission Essential Task List**
 - CMETL establishes training focus before a unit trains on single operational theme
 - CMETL constant, but training conditions and supporting tasks to

The BIG Ideas

☑ **Directed METL**

- **DMETL establishes training focus for a unit's directed mission**
- **DMETL conditions and supporting tasks to be trained based on the conditions for the directed mission**
- **Core METL is a start point for developing DMETL**

☑ **Commanders' Dialogue**

- **Between commanders before conducting the training briefing and finalizing the contract**
- **Clarify expectations and requirements**
 - **Specific collective tasks to train**
 - **Conditions for training tasks**
 - **Resources required for training**
 - **Higher assumes risk on those tasks not to be trained**

☑ **Flexibility for Commanders**

- **Commanders determine the time & frequency of training management events**

Other Changes

NEW concepts:

- **Training the Modular Force**
 - Design may require outside expertise
 - Training relationships
- **ARFORGEN concept**
- **Gaming & Live-Virtual-Constructive Training**

Environment

- **CTCs as a “bridge” between Generating Force and Operating Force**
- **Generating force support to units**

CHANGED concepts:

- **Principles of training; added tenets**
- **Training management model**
- **More discussion of training domains, leader development, and Civilian Education System**

United States Army Combined Arms Center

- **Battle Command training**
